

Investor Guide to our Product Rollouts on SEI

Rollout Order	Name	Initial Cost	How to Get It	What It Gets You
01	Not Medical Advice (NMA) NFT	30 SEI	Mint	<p>Royalties: Paid in SEI (Before Staking)</p> <p>Airdrop Rewards: 1000 MACA</p> <p>Governance: Governance influence on MACA token decisions.</p>
02	MACA Token	0.03 SEI (30 SEI mint cost / 1000 MACA Airdrop)	<p>1) Holding NMA NFT</p> <p>2) Staking Airdropped MACA</p>	<p>Banking: MACA earns dApp fees when banked as xMACA</p> <p>Farming: Low yielding farm rewards for providing MACA in a pair as liquidity.</p>
03	altSEI	Market Dependent	<p>1) Deposit SEI when altSEI minting dApp is live</p> <p>2) Swap using the SEI-altSEI LP</p>	<p>Diversification: Deposited SEI is invested in the best investable liquid assets in the SEI ecosystem.</p> <p>Farming: altSEI can earn modest yield from farming rewards.</p> <p>Crosschain Staking: Eventually altSEI will be IBC-transportable to Aztec chain where it can stake and earn the next dApp's fee-earning token GOJI.</p>
04	xMACA	<p>Initial: 1 MACA</p> <p>Future: Slowly gains against MACA</p>	Bank MACA	<p>Earns Platform Fees: Fees from the altSEI minting dApp used to buyback MACA for xMACA bankers</p> <p>Governance: Potential governance influence on direction of altSEI composition</p> <p>Airdrops: Potential future airdrops for certain held amounts on 3rd chain and beyond. Details still TBD, don't invest based on this detail.</p>
05	NMA NFT (2x)	N/A	Mint or Buy/Hold Two Not Medical Advice NFTs before Doubledose Airdrop	<p>For every 2 NMA NFTs held at the time of the Doubledose Snapshot, holders will be airdropped (or claimedropped) 1 NFT on Aztec. Aztec NFT will earn GOJI (as the NMAs earned MACA).</p> <p>Additionally, 1 NMA + 1 Aztec NFT will be needed to deliver NFTs for mini-allocations on chains #3, #4, #5, etc.</p>
